

FM Audit

The proactive solution to managing your imaging network

Printer **downtime can be costly** to your business. By utilizing FM Audit, you will stay ahead of any potential issues.

FM Audit is a **free solution** that automatically tracks toner levels and notifies our team when a device is getting low. Never risk hastily ordering supplies after you've already run out. FM Audit empowers you to change your operations **from reactive to proactive**, avoiding downtime and enacting a forward-thinking approach to your tech ecosystem.

How FM Audit improves your business:

- 👁️ Proactively monitors your imaging equipment
- ⚡ Removes the responsibility of having to collect meters manually for submitting
- 💰 Ensures accurate billing
- 🕒 Frees up time and workflows – allowing you to stay focused on what matters most to your business development
- 🖨️ Manages printer devices across your entire network
- 📊 Provides valuable daily toner reports
- 📈 Tracks printer usage and data trends
- 🛡️ Provides security with end-to-end encryption and is HIPAA-Compliant
- ⚠️ Alerts the Office1 team when toner is low, enabling us to fill your supply orders **before** you ever run out
